MINELA | LED TASK LUMINAIRE

MINELA

LED. BRAND NEW.

The innovative MINELA LED task luminaire combines **L**ighting quality, **E**nergy efficiency and **D**esign requirements at a whole new level.

The design has been consistently reduced to the basics – pure function and aesthetics in one.

With respect to lighting technology, MINELA shines with a true innovation: a high-power multi-chip LED in strip design operated with only 5 watts. It illuminates the desk uniformly across a wide area with a pleasant and invigorating light color, without creating any shadows.

MINELA. DISTINGUISHED BY ITS UNIQUE SHAPE.

MINELA stands out with its clear lines, which can be seamlessly integrated into any style.

The high-contrast interaction between chiseled and elliptic shapes gives the MINELA a unique appearance, which is underscored by the high-quality materials: the head, support arm and stand are made of powder-coated aluminum. The metal surfaces support the efficient distribution of heat produced by the light source.

The two delicate grooves on the top and bottom of the head are a very special design detail. They visually continue the line of the pivot arm and provide an interesting accent.

FLEXIBLE. PROPER LIGHTING IS A MATTER OF CONTROL.

MINELA is equipped with three articulated joints and can be adjusted to any individual vision requirement.

The gas pressure spring relieves the joints of the weight of the luminaire. As a result, MINELA is easy to position by hand. The self-locking joints automatically secure the selected position – and the cumbersome opening and closing of tommy screws is a thing of the past. The head can be moved into any desired position in several dimensions – great for preventing reflections on shiny surfaces. Additionally, both symmetrical and asymmetrical light emission is possible.

MINELA is available with a mobile table base, or with a table clamp.

The illuminated pushbutton for on, off and dimming functions is activated with a light touch. When the luminaire is switched off, the pushbutton serves as an orienting light.

Highest quality of light and extensive illumination: 5 watt high power multichip LED in strip design.

COOL. A COOL HEAD HAS MANY ADVANTAGES.

MINELA is equipped with a high-power multichip LED in an innovative strip design. A special feature is the well-engineered thermal management. By using premium electronic components and materials of the luminaire head that are matched to each other, the heat of the high-performance LED is quickly dissipated. The benefits are obvious: higher energy efficiency, longer service life, and lower heating.

FAR-REACHING. A LONG ARM OFFERS FLEXIBILITY.

The long extension of the arm ensures maximum flexibility when it comes to the placement of the MINELA. The luminaire can be easily set up or attached outside of the desk, work, or reading surfaces, both to the left or the right.

The innovative strip design of the LED enables wide-spread lighting and uniform illumination of at least 600 x 600 mm.

POWER SUPPLY	100-240V, 50/60HZ
FITTED WITH	1 x LED 5W
MAINS LEAD	approx. 2.3m, power pack with Euro plug
MATERIAL BODY	Aluminum, powder-coated
MATERIAL SURFACE	Aluminum, powder-coated
ATTACHMENT	Table base / table clamp (accessory)
WEIGHT	860g
POWER CONSUMPTION	ca. 8 W
USAGE	Touch sensor
GLARE SUPPRESSION	None
ARM BALANCE	Gas pressure spring
PROTECTION CLASS	II

ORDER INFORMATION

TYPE/MODEL	ETL 1 F
OPERATING DEVICE	Power pack
HOUSING COLOR	white
TECHNOLOGY	Dimmable
ORDER NO.	112 883 000

ACCESSORIES

TYPE/MODEL	Table base, black
ORDER NO.	ILL 005 00C
TYPE/MODEL	Table clamp, black
ORDER NO.	ILL 001 00C
