Nami

LEAN, LIGHT, AGILE

Inspired by the dynamic beauty of a cresting wave, Nami's sculpted back and seat have a gentle, controlled flex that moves with the user's body to provide comfort when seated over an extended period.

As a stacking chair — with accessories that include a tablet arm, bookrack, dolly and ganging option — Nami™ performs multiple functions in diverse spaces.

^
MODEL:
*Stacking Chair with
Integrated Arms*
SHELL: *Storm White*
FRAME: *Chrome*

^
MODEL:
*Stacking Chair with
No Arms*
SHELL: *Storm White*
FRAME: *Chrome*

The chair's smaller scale makes it ideal in training and conference areas, auditoriums, classrooms and healthcare facilities. Its compact frame, combined with a modern profile, is attractive in a retail setting,

cafeteria, café and recreational space. The Bar Stool model is ideal for use in bar, bistro and cafeteria applications. Nami's simple form and clean, light look also coordinates well within workstations as a guest chair.

Nami is suited for any informal environment that requires comfortable, stylish, well-priced seating. The shell is offered in storm white, fearless red, lunar grey and ebony colors, with a choice of chrome or ebony frame.

^
MODEL:
*Stacking Chair with
No Arms*
SHELL: *Fearless Red*
FRAME: *Chrome*

BOOKRACK

The bookrack provides storage of books and other personal items.

GANGING DEVICE

Unlike most stacking chairs, Nami uses the same ganging device for models with or without arms, or in combination. The ganging device, which is retrofittable, retracts beneath the seat when not in use.

TABLET ARM

The retrofittable tablet arm option pivots 180 degrees for easy user adjustment and folds down when not in use.

DOLLY

The Nami dolly is designed to save valuable space for storing and transporting the stacking chairs.
