Zone

The form-fitting Zone® chair is a classic stacking chair: simple, practical and comfortable. Substantial yet light in weight, it provides excellent support with a smoothly contoured seat and back that conform to the body's natural shape. Its sleek, understated elegance translates to any setting and provides an ideal solution

for short-term seating needs in dining areas, classrooms and auditoriums. A bookrack option provides storage for books and other personal effects. Zone also provides attractive guest seating in the office and workstation. The bar-height stool, equipped with a footrest on all four sides, is suited to a full range

of applications including cafeterias, cafes, restaurants and casual break areas. Made of durable polymer, the chair and stool are each available partially or fully upholstered with or without arms.

>>
The cantilever arms fit smoothly into the metal supports and polymer backrest.
>>
Two types of ganging devices keep chairs neatly aligned - one for use with armless models and the other for chairs with cantilever arms.
>>
The Zone Dolly neatly stacks up to 10 chairs for efficient storage.
